Who We Are

An experienced O&G management and operational Advisory, bringing international experience to the Middle Eastern upstream sector.

Over 20 years of experience in the sector for 2017 we have a proven track record.

Our belief and proven experience can only be expressed by the words of leading oil and gas:

Androna provides executive management advice to O&G companies in the GCC based on its in-depth decades of E&P operational and advisory experience.

Our objective is to provide tangible improvements and practical advice that creates immediate measurable impact.

Our Value Proposition

Androna provides a unique combination of industry and technical insights, operation capabilities as well as investor access.

- In-depth knowledge of upstream & offshore O&G markets, globally and especially the GCC
- Managerial, operational & technical hands-on expertise of the team, in overall asset management and in specialized topics
- A wide network of executives in O&G operation and service companies, with a clear understanding of their way of thinking
- Strategic capabilities as well as relevant M&A / investor network, improving the sell and buy success stories
- Performance driven with a track record of projects - Success based making us win when you win.

Our Services

Androna is specialized in transforming and optimizing O&G companies, as well as supporting M&A activities.

We work hand in hand with our clients to turn insights into actions on following 3 service lines:

Business Strategies & Transformations

- Our transformation success is based on decades of management and technical oil and gas experience.
- We bring an independent view, tools and interim managers to put your strategic goals into action.

Performance Improvement & Cost Optimizations

- Our holistic improvement toolbox includes besides traditional measures also asset analysis, subsea and value creation through integration, which will visibly improve your KPIs.

Sell & Buy Side Support

- M&A can offer significant rewards when done right. Essential to success is a profound technical and commercial understanding of the asset potential and its risks.
- We leverage our network to source and assess opportunities, identify investors and guide the transaction process.

POSTER DESIGN

IT'S ALL ABOUT THE RIGHT PORTIONS

Start downsizing to healthy portions and your body will, too. Check food labels and restaurant menus for hidden calories. Learn to "eyeball" your food to gauge what's too much -- and what's just right.

Half a cup of mashed potato, rice, or pasta should be about the size of a traditional light bulb.

Your serving of meat, fish, or chicken should be the size of a deck of cards, or the palm of your hand.

**EAT SMART,
BE SMART.**

FISH & SEAFOOD HEALTHY FOOD OPTIONS

Seafood can work wonders for your health in many ways. Good for a healthy heart. Boosts your body's energy production. Keeps your brain and nervous system healthy. Good for your skin and hair.

**EAT SMART,
BE SMART.**
